

West London Construction Academy

Building futures for 16-18 year olds and adults

West London Construction Academy (WLCA), is a fantastic learning facility on a live construction site, offering a wide range of construction courses to give you the skills for a great career.

Courses are relevant to industry needs and include construction, bricklaying, kitchen fitting, plastering, dry lining and interior systems.

WLCA has been built to provide you with a real hands-on learning experience, with practical work placements, helping you develop the skills needed to gain employment opportunities within the industry.

WLCA is based on one of the most ambitious regeneration projects in London - Southall Waterside by Berkeley Homes.
